BHARATHIDASAN INSTITUTE OF MANAGEMENT

Student Profile

BATCH 41 (2024-26)

BATCH 42 (2025-27)

Influencing Tomorrow...

www.bim.edu

VISION

To be a preferred destination for management studies to nurture resilient professionals who embrace emerging technology, inclusiveness, and social responsibility.

MISSION

To develop resilient and socially responsible professionals through management education blending technology, contemporary curriculum & pedagogy with a focus on sustainability, and research.

MOTTO
OF
BIMites

Leave the world a better place
than we found

BIM witnessed many changes in global business orders in its forty years of journey. B Schools respond to these changes through an ever-evolving curriculum and pedagogy to stay contemporary and make its students bulletproof in a VUCA world. However, what does not change is the vision and values of the institute and its governance. Today, BIM as an institution and its 5,000 plus BIM alumni make a significant impact on industry, academia, and society globally.

We do not intend to be another IIM or play on scales. We want to be known as a boutique B School specializing in new technology applications and sustainable development.

Dr. ASIT K BARMA
Director

India's economy has shown remarkable resilience amid a gloomy global outlook, with a strong tailwind guided by India's traditional consumption-driven growth, the surge in capital expenditure and investment, and a significant rise as a startup and IP-led emerging economy. With a population of 1.46 billion, with 58% being below 30, India enjoys a huge demographic dividend. At BIM, we are building the agility of a new-age start-up on the robust values and processes built over the past forty years. BIM will be globally known for its unique program architecture targeted at Gen Z, and being at par with Tier-1 B Schools regarding new technology applications and sustainable development.

B-Schools are not just talent factories for corporate India—they are hubs of leadership, innovation, and policy influence. Their role is critical in shaping the future of India's economy. At BIM, we focus on the following three priorities to make our graduates stay ahead in value creation in their places of work.

Building Future-Ready Leaders

- Training leaders who understand sustainability, digital disruption, and global business dynamics.
- Instilling ethical decision-making and governance values. Building a strong self and resilience in the new business order.
- Early exposure to research, consultancy and AI application.

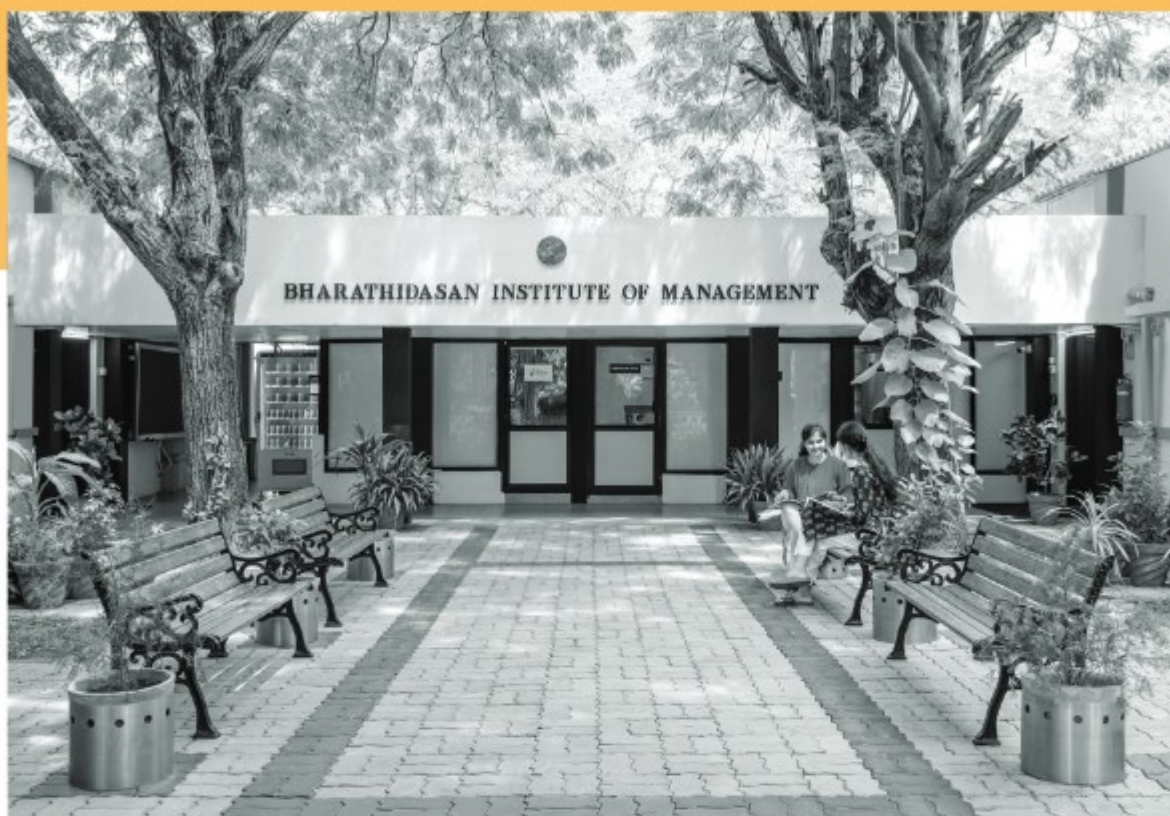

Bridging the Skill Gap

- Industry-relevant curricula in areas like data analytics, Gen AI/ Agentic AI, digital business, ESG, and fintech. This is complemented by our unique pedagogy of learning by solving industry problems, business simulations, case studies, action-projects and several centres of excellence.
- Partnerships with industries for industry-designed and industry-delivered courses, real-world problem-solving and internships.

Influencing Policy & Research

- Our students extensively work on new technology applications and the practice of sustainability through curriculum, research incubation and industry projects, thereby gaining experience to support government policy, especially in areas like financial inclusion, service delivery, e-governance, and digital transformation.

My best wishes to our esteemed recruitment partners and the students!

Established in 1984, Bharathidasan Institute of Management (BIM), Tiruchirappalli, is one of India's leading B-schools known for academic rigour, industry-linked learning, and value-driven leadership.

An autonomous institution under Bharathidasan University and certified under ISO 21001:2018, BIM was born out of a visionary partnership between the university and BHEL. The idea was simple but ahead of its time: management education should be closely tied to industry, just as medical education is anchored to hospitals. This idea was born out of one of our founder member former Union Minister Bharat Ratna, Late Shri C Subramaniam, who was instrumental in setting up this B-School.

Since then, BIM has consistently evolved with the changing demands of the business world. The institute offers a two-year full-time residential MBA program approved by AICTE, with specialisations across Marketing, Finance & Economics, Operations & Supply Chain, Human Resources, Digital Business, and Analytics. It also runs the Tamil Nadu Chief Minister's Fellowship Program and various executive learning initiatives. Over the years, BIM has built a robust research ecosystem supported by centres of excellence like FINTRAC (Financial Trading and Analytics Centre), Operations Excellence Centre, the Real-Time Contextual Marketing Lab, and the Centre for Sustainable Development. Today, its alumni network of over 4,500 professionals continue to make a mark across industries, geographies, and functions.

Carrying forward this legacy into the future, BIM is expanding into a new purpose-built campus at Kalamavur, along the Tiruchirappalli–Pudukottai Highway. Designed to be a forward-looking space for learning, collaboration, and research, the upcoming campus blends sustainable architecture with modern academic infrastructure. Surrounded by open courtyards, green spaces, and a full-fledged sports complex, it promises to be a vibrant and self-sufficient environment where students can think, build, and lead.

The academic direction, across both campuses, remains in the hands of the same experienced faculty, ensuring that BIM's core mission stays intact: shaping capable, grounded, and forward-thinking business leaders for an evolving world.

PLACEMENT COMMITTEE

Arthi B, Mahalakshmi V, Aishwarya

WHY RECRUIT FROM BIM

- Our students are known for their resilience, having consistently exhibited high retention value, with a high average tenure in the company compared to their peers from other institutes.
-

- Several alum CXOs, spread throughout the globe, are making a significant impact in corporate, government and society, a toast to BIM's unique program architecture.
-

- Our students are industry-ready on day one, thanks to BIM's industry-designed and industry-delivered courses and hands-on experience in various Centres of Excellence.
-

- Partnership model of recruitment and not a career mela, where we create enough opportunity for recruiters and students to find the mutual alignment of values, roles and aspirations. We also arrange training on specific technologies/ applications for our graduates based on the recruiters' suggestions to ensure the candidates can hit the road running.

BATCH 39 & 40

The placement seasons for BIM Trichy's 39th and 40th batches marked yet another chapter of consistent outcomes and strong corporate trust. Across both cohorts, nearly 100% of students secured offers through campus placements, underscoring the institute's position as a dependable talent partner across sectors.

Batch 39 recorded 112 offers for a batch size of 119, while Batch 40 continued the momentum with strong participation and outcomes. A total of 37 companies participated in the process for Batch 39 and 40 respectively. The average CTC stood at ₹10.5 LPA for Batch 39 and ₹10.46 LPA for Batch 40, reflecting a mix of experienced professionals and early-career talent across the two cohorts. The highest CTC offered touched ₹16 LPA for Batch 39 and ₹35.26 LPA for Batch 40.

Students were placed in key roles across domains such as Marketing, Finance, Operations, Analytics, Product Management, Human Resources, and Strategy. Participating companies came from a wide industry spectrum including technology, consulting, manufacturing, BFSI, and supply chain.

Notable recruiters included Accenture, Asian Paints, Bosch Global Software, CRISIL, Ford, Godrej & Boyce, Infosys, o9 Solutions, Schneider Electric, Vedanta, and Wipro Technologies, among others. The placement process also welcomed several new hiring partners, further expanding BIM's recruiter base.

Final placements were conducted in a structured and time-bound manner, with select students also securing Pre-Placement Offers (PPOs) through their summer internships and project engagements.

As BIM Trichy moves ahead, the strong placement performance of Batch 39 and 40 stands as proof of the institute's commitment to producing capable, confident, and industry-ready professionals.

ACTION POINTS

During my internship at CalTon Energy Management Solutions, I identified key industry segments, conducted client interactions, and developed tailored business proposals. I led site visits, performed energy data analysis using Python, and collaborated on deploying a power analyzer application. I also designed marketing collateral for the Indian Energy Storage Expo and ensured effective project handover.

Known Languages : English, Malayalam

Technical Skills : Expert in creating dynamic Excel charts, formatting, trend analysis, and performance tracking. Confident in preparing income statements, balance sheets, and capital statements.

Certifications : Advanced Excel, SAP Power User, NISM Series 5A Mutual Fund, NISM Series 8 Equity Derivatives, HBS Pre-MBA Courses

About Me : Hi, I'm Melwin Shaji, a commerce graduate from Baselius College, Kottayam—passionate about finance and driven by a mindset to achieve results what others perceive to be impossible. I bring 13 months of experience as a Mutual Fund Management Trainee, executing fund transactions and managing diverse client portfolios. I'm certified in NISM VA (Mutual Funds) and NISM 8 Equity Derivatives, with hands-on expertise in following market trends, technical indicators, and investment strategy through a disciplined, professional approach. Prior to this, I played a pivotal role as one of the three core pillars in establishing my family's hardware business, which was launched in 2022—gaining hands-on experience in retail operations, customer engagement, and strategic decision-making. I professionally combine analytical rigor with real-world business insight, applying a systems-driven mindset to Excel-based financial modeling and data analytics for scalable, high-impact decision-making.

I take initiative, adapt quickly, and am always ready to take on greater responsibilities to contribute toward collective goals.

Hobbies : Portrait and perspective drawings

At BIM Trichy, placements are more than just a final-year event—they are the culmination of sustained effort, industry interaction, and focused preparation. The entire process is managed by the Student Placement Committee with guidance from faculty coordinators, ensuring professionalism and clarity at every step.

1. RECRUITER CONNECT & CONVERSATIONS

Companies begin their interaction with BIM students through structured Pre-Placement Talks. These sessions offer recruiters a chance to introduce their organisation, role expectations, growth opportunities, and workplace culture. Students are encouraged to engage, ask questions, and explore career fit.

2. APPLICATIONS & RESUME SUBMISSIONS

Once job descriptions are shared, interested students apply through the Placement Committee by submitting their updated resumes and any required documentation. Recruiters are requested to review these applications and share their shortlist ahead of the interview dates.

3. INTERVIEW ROUNDS

Companies may conduct interviews on campus, virtually, or at their office premises. The process may include personal interviews, case rounds, group discussions, or domain-specific assessments, based on each organisation's hiring process. The Placement Committee facilitates all scheduling and logistics support.

4. OFFERS & CONFIRMATIONS

Formal offers are communicated to the Placement Committee and then shared with the selected candidates. Offers typically include all relevant details such as role, location, CTC, and terms. Students respond as per BIM's placement policy, which ensures a fair and structured acceptance process.

BHARATHIDASAN
INSTITUTE OF
MANAGEMENT

BIM's second new campus on a 19 acre sprawling land and 3,50,000 sq.ft. of builtup area will further boost its capacity building initiatives.
